

Please also note our general details and sales information

Edition 03.04.2018

Errors and amendments excepted. Our General Terms and Conditions are effective.

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: zig-zag springs, Dacron, polystyrene foam VW 40, 70% foam sticks VW 40, 30% fibre balls, Diolen

Back upholstery structure: zig-zag springs, Dacron, cold foam, 70% foam sticks, 30% fibre balls, Diolen

UPHOLSTERY VERY CASUAL

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A very casual upholstery is characterized by a smooth, soft surface. The covers are intended showing a distinctive curly image and an extended wrinkling on seat, back and armrests already in new condition. With high quality upholsteries with bay quilting as applied a flexible mixture out of loose filling material enables a point adaptation to the body. So that the contents don't „move around“ the fillings are worked in bays. According to the cover they come more or less apparent Sitzmarks are due to model and design typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

I FUNCTIONAL HEAD PIECE

During moving the head piece forward it is locking into the desired position. By pressure backwards the head piece can be returned to the basic position.

II MOTOR-DRIVEN BED FUNCTION

Seat and back are adjustable for a comfortable bed function.

Via motor the seat is moved forward and the back is lowered to the point of a lying area.

The handling is effected by sensors that react to touch, are formed as buttons and are fixed to the cover (TOUCH IT Technology).

LEGS

Plastic glider

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

The model is only worked with selvedge seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **combination**
- **covering material**
